# Partner with Dooap in 3 easy steps

Your clients will be happier when you're able to offer them Dooap's user-friendly accounts payable automation solution – and we make it easy to get started. Sign up today and start earning tomorrow.

1 Your D365 Clients
A streamlined AP automation approach will greatly benefit any of your D365 Finance clients. Let's team up and introduce the AP optimizations that your clients deserve.

2 Client Referral
Refer your D365 Finance client to us and we'll connect with them to determine how we can transform their AP process.

3 Start Earning
Sign up today, no strings attached. If your referred client selects Dooap as their AP automation solution, you'll earn 10%.

Responsiveness you can count on

In AP automation, speed and accuracy matter — but true efficiency comes from responsiveness. Dooap delivers a seamlessly integrated, intuitive AP solution built exclusively for Microsoft Dynamics 365 Finance, ensuring invoices flow effortlessly from arrival to payment.

With smart automation, real-time insights, and expert support that anticipates customer needs, Dooap keeps the AP process smooth, predictable, and stress-free.

Dooap runs on Azure, outside of D365, but uses the master data and business logic from the ERP in real time.

- Seamless integration
- Superior user experience
- Native Mobile App with versatile functionality
- User-friendly flexible workflow engine
- Independent upgrades
- Advanced analytics with role-based dashboards
- Zero customization and performance load in D365

" It's easy-to-use interface and mobile app were head and shoulders above anything else we looked at. — CUSTOMER

" Our team continues to be impressed by the Dooap solution and our engagement with everyone from the organization. — PARTNER
